

Nishant Deshpande

Accomplished UI/UX Designer with 5 years of experience specialized in crafting user-centered designs, optimizing digital journeys, and developing scalable web templates. Demonstrated ability to lead visual redesigns, manage end-to-end design processes in Figma and Adobe environments, translate brand guidelines into high-performing customer experiences, and mentor teams to drive visual consistency.

Work Experience

Freelance UI/UX Designer

Mumbai, MH

Feb 2026 - Present

- Designed end-to-end Shopify experiences for Shreenayaas (premium women's ethnicwear) and HighX (graphic-driven streetwear), creating all core templates plus 3 custom product-page templates per brand
- Owned the complete design process from research and strategy through high-fidelity UI and Shopify implementation, collaborating directly with founders on conversion-focused flows
- Secured first-presentation approval on Shreenayaas product pages; partially launched HighX and generated early sales

Lead UI/UX Developer, Tiivra Ventures

Mumbai, MH

Feb 2024 - Feb 2026

- Led the complete redesign of Tiivra and Tvarra Shopify stores, owning design and most front-end implementation while also directing photoshoots, supporting graphic design, collaborating with digital marketing, and spearheaded the CRM department
- Increased Tiivra conversion from 0.085% to 1.2%, add-to-cart from 27% to 39%, and reduced bounce rate from 82% to 66%; also improved pages/session, time on site, and scroll depth
- Increased Tvarra conversion from 0.2% to 1.5% while lifting engagement metrics and reducing overall LCP from 3.4s to 2.1s (for Tiivra) and from 2.7s to 1.9s (for Tvarra)

Front-End Developer, Ardor IT Systems

Charlotte, NC, USA

Nov 2022 - Feb 2024

- Owned front-end delivery for six client websites, building and refining interactive components including cards, accordions, and UI updates using HTML, CSS, JavaScript, jQuery, and React
- Partnered with design and product teams to translate requirements into production-ready, responsive interfaces and ensure smooth handoffs
- Conducted thorough testing and iterative improvements across client projects, contributing to an 11% increase in lead generation

Front-End Developer, Found Search Marketing

Fishers, IN, USA

Nov 2021 - Oct 2022

- Developed and maintained websites for select clients as well as internal projects using HTML, CSS, JavaScript, jQuery, and ReactJS
- Optimized site performance, reducing average page-load time from 2.8s to 2.2s for a smoother user experience
- Implemented automated form testing across multiple forms for 13 clients, enabling continuous monitoring and faster issue resolution
